Subject: Bartlett – Public Water System: Partridge Woods Condominiums (EPA #0162230)

Dear Mr. Hogan:

Based on a recent review of the file for Partridge Woods, the Department of Environmental Services (DES) has determined that the Beryllium Running Annual Average (RAA) has been below the maximum contaminant level of **0.004 mg/L** for over a year. Therefore, DES hereby closes Letter of Deficiency #WSEB 02-41, dated June 28, 2002 (the "LOD"). As such, the actions requested in the LOD are not enforceable at this time. Please note, this letter does not release the system from other pending enforcement actions that are still in effect and enforceable.

**Please continue to submit water samples according to your Master Sampling Schedule.**

If you have any questions, please contact me by phone at (603) 271-0655, or by e-mail at [agourley@des.state.nh.us](mailto:agourley@des.state.nh.us).

Sincerely,
